Simple elegance derived from the timeless heritage of fine cabinetmaking of the 18th Century is seen in the delightful Eden group. Here is a complete table grouping superbly designed using figured Cherry veneer distinctively banded with solid Cherry for the tops and genuine Cherry for the sturdy underparts. Eden's Sienna finish adds a new note of lustrous beauty, bringing out the full depth of the Cherry graining. And, the drawer pulls of antiqued brass interestingly convey the charm of antiquity that makes this design ever popular.
